SUPPLY CHAIN MANAGEMENT

RICHARD O'DONNELL
ASSOCIATE DIRECTOR LOGISTICS
AND READINESS CENTER
732-532-3460
Richard.F.Odonnell@us.army.mil

OVERVIEW

- Develop Factory to Field view of the total supply chain
- Identify the network of suppliers
- Identify critical vulnerabilities in the supply chain
- Develop recommendations for supply chain improvements

Process

- Identify critical parts; Data analy
- Map supply chain
- Identify critical parts on critical path
- Develop and implement actions both on a system ar command (across systems) level.

Issues/Concerns

- Supply chain has long lead times
- Companies adverse to risk and investment resulting in low or no inventories
- Limited visibility of demand, concerned about demand uncertainties.
- Many issues may cut across multiple systems

Goals

- Obtaining reports on system supply chain including sub tier vendors
- Comparing across systems
- Going back to our contractors to find solutions to supply chain problems/vulnerabilities

Conclusion

We solicit your thoughts and ideas by 29 Jun 07.
